INTRODUCTION

We have delivered all major HMRC hubs: Croydon, 10 South Colonnade, Canary Wharf, 100 Parliament Street, Manchester Trinity Bridge House, Bristol and Belfast, with Edinburgh currently underway. The 10SC project, with 3,500 positions, is a 'government super hub' and benchmark project, where Senator product set the accepted precedent for quality and design for future government hubs.

The Senator Group

THE SENATOR GROUP

Accreditations

ISO/BS Accreditations:

The Senator Group holds the following ISO accreditations:

ISO 9001

ISO 14001

ISO 18001

Furthermore, we hold Cyber Essentials Plus certification, demonstrating the robustness of our IT security.

Our products are compliant with the BS EN standards required by CCS – assured through internal and external testing processes.

THE SENATOR GROUP

Design

Great DESIGN Lasts forever.

The Senator Group is a design-led business.

We believe that design improves the lives of our customers.

Design with a purpose.

The Senator Group

PRODUCTION CAPACITY

1.25 million + square feet of manufacturing space

PEACE OF MIND

Proven track record

ON TIME

More than 98% of orders delivered on time

INNOVATIVE PRODUCTS

Innovative product design - 21 awards in 2018

YOUR CHOICE

Product choice and flexibility - 200+ product ranges

REPUTABLE

42 year track record

DESIGN

20+ designers in our internal design teams

EXPERIENCE

Major project delivery expertise; up to £11 Million

UK MANUFACTURER

BENEFITS

Low risk option - mitigating Brexit uncertainty; Supporting local economies, employing local people, high standard of quality, quicker lead times; cost effective solutions

We have regional showrooms that communicate our ‘workplace solutions’ at our HQ Accrington, Lancashire, Charterhouse Square London and Sovereign Hall Birmingham.

1.25 million sq feet of manufacturing

1,400+ employees in the UK

Local SME supply chain development

57 apprentices at our UK based head office

Community Engagement

UK quality, safety and environmental standards

The Senator Group

SUSTAINABILITY

SUSTAIN

Established in 2009 - Sustain is a critical part of our business and represents a significant investment in our sustainability commitment. Last year we recycled over 600 tonnes of Cardboard and Paper this is the equivalent of saving over 10,000 trees.

RECYCLED MATERIALS 2019

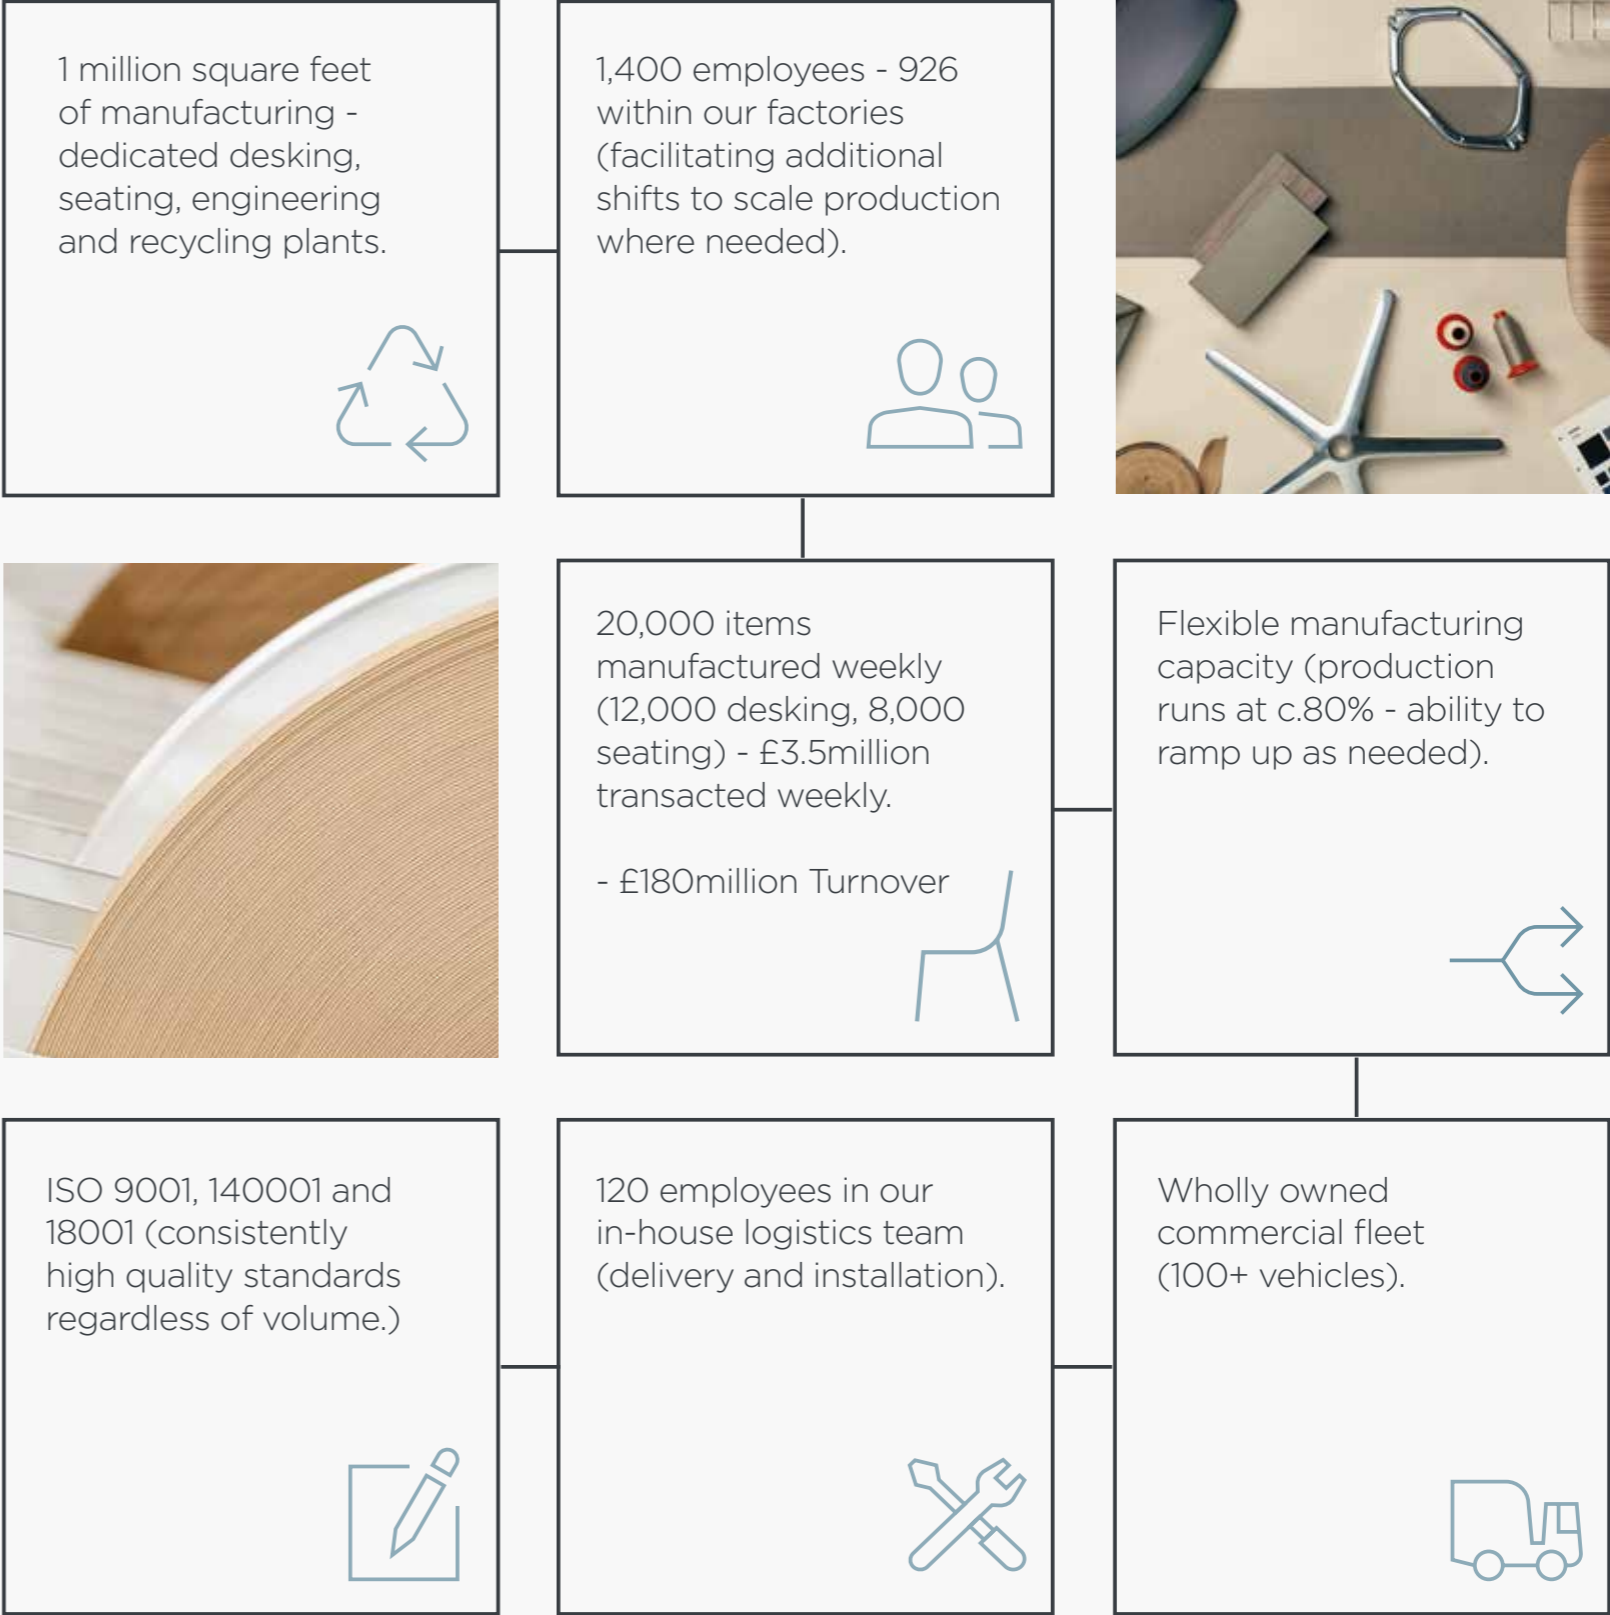

Foam/fabric/leather:	53 tonnes
Metal:	690 tonnes
Cardboard and paper:	600 tonnes
Plastics:	210 tonnes
Wood recycled board:	1947 tonnes
Wood recycled biomass:	4469 tonnes

CAPACITY AND SCALABILITY

We have extensive resources, offering our clients considerable flexibility and scalability to manage large projects.

The Senator Group

SUSTAINABILITY

Sustain is a purpose-built 15,000ft² recycling unit in Lancashire. Sustain is now a ZERO waste to landfill business. Furthermore, as our manufacturing facilities have ready access to Sustain, waste material from our manufacturing process is sent to Sustain, which has helped us to achieve ZERO waste to landfill for our manufacturing facilities also.

The £1.5million facility represents a significant investment in our sustainability commitment; we have recycled more than 270,000 items and diverted more than 7.5million tonnes of waste from landfill since establishing this business. This equates to an emissions saving of 8,790,798 Kg/CO₂.

For every piece of material that Senator puts into the market, there is a route for recycling the equivalent piece of redundant material at the end of its life.

BENEFITS

Remanufacturing – saving between 35-55%

Continued warranty on remanufactured items

Reduction of landfill tax

Contribution to CCS sustainability targets

Our products are certified to the

internationally recognised Leadership in Energy and Environmental Design (LEED) ratings and we have SKA ratings to Gold standard.

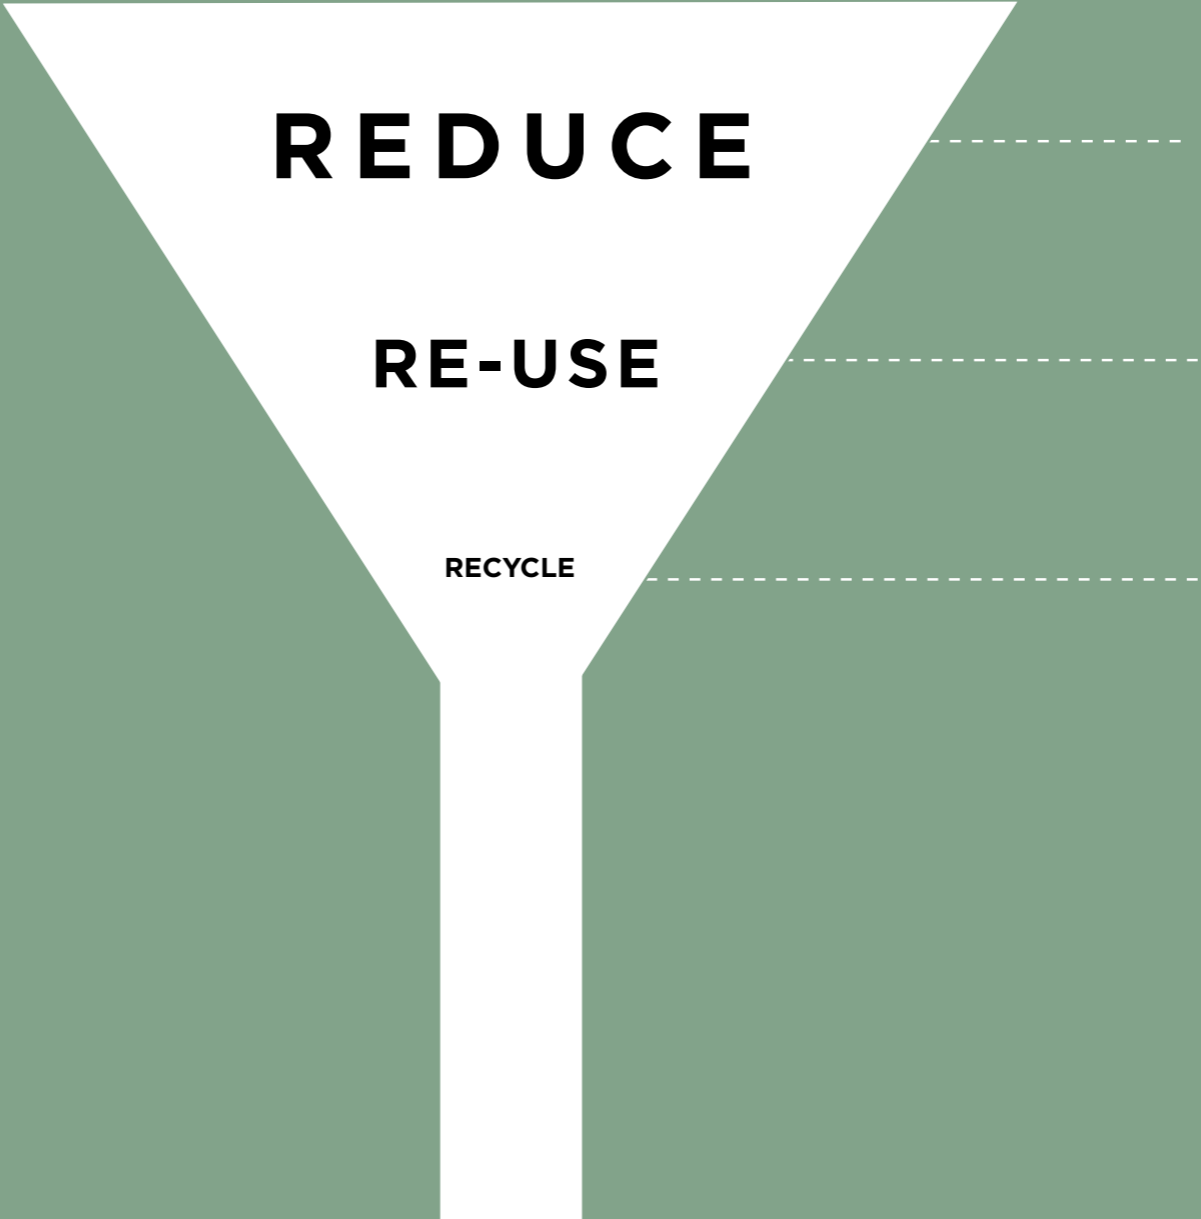

WASTE HIERARCHY

In the last two years we've recycled nearly 150,000 items of furniture for almost 250 different customers, which is nearly 3,000 tonnes of material diverted from landfill.

BENEFITS

- Recording and Reporting – certificates to detail waste and carbon emissions diverted from landfill
- Reduction in carbon emissions
- Reduction in waste to landfill tax
- Typical savings on re-manufactured furniture of 35-55%
- Cost savings – reduction in comparison to skip costs
- Full one-stop shop - Turn key package

Reduce.

Products: Reduction in virgin materials used – programmes to increase recycled content of products
Packaging: Minimal packaging on all products

Re-use.

Products: We re-use where possible, whether this is donating redundant products to charities and social enterprises, or using our remanufacturing service to give old products a new lease of life.
Packaging: We re-use packaging wherever possible and in line with quality guidelines.

Recycle.

Products: All Senator products are 100% recyclable.
Packaging: All waste packaging materials are recycled.

In 2018 600 tonnes of cardboard and paper were recycled

PRACTISING WHAT WE PREACH

Bringing our head office space in line with best practice for workplace consultancy

Working showroom

Training and meeting space available for clients

£2million+ investment

WHY THE SENATOR GROUP?

Control

Complete flexibility to meet your project needs

Certainty

We will meet your project milestones

Consistency

Standardisation across your all offices

Value Efficiency

Maximising value for money

Bespoke solutions

We can tailor products to meet you exact needs

Industry leading warranties

All products have long-term warranties

Sustainability

Strong sustainability credentials - all of our products are 100% recyclable.

Global Coverage

Cost efficiencies

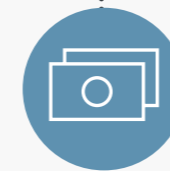

Highly experienced

We understand CCS and major projects

Extensive support

Fully resourced account team

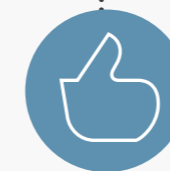

Competitive Pricing

Competitively priced basket of goods

Aftersales

Commitment to Day 2

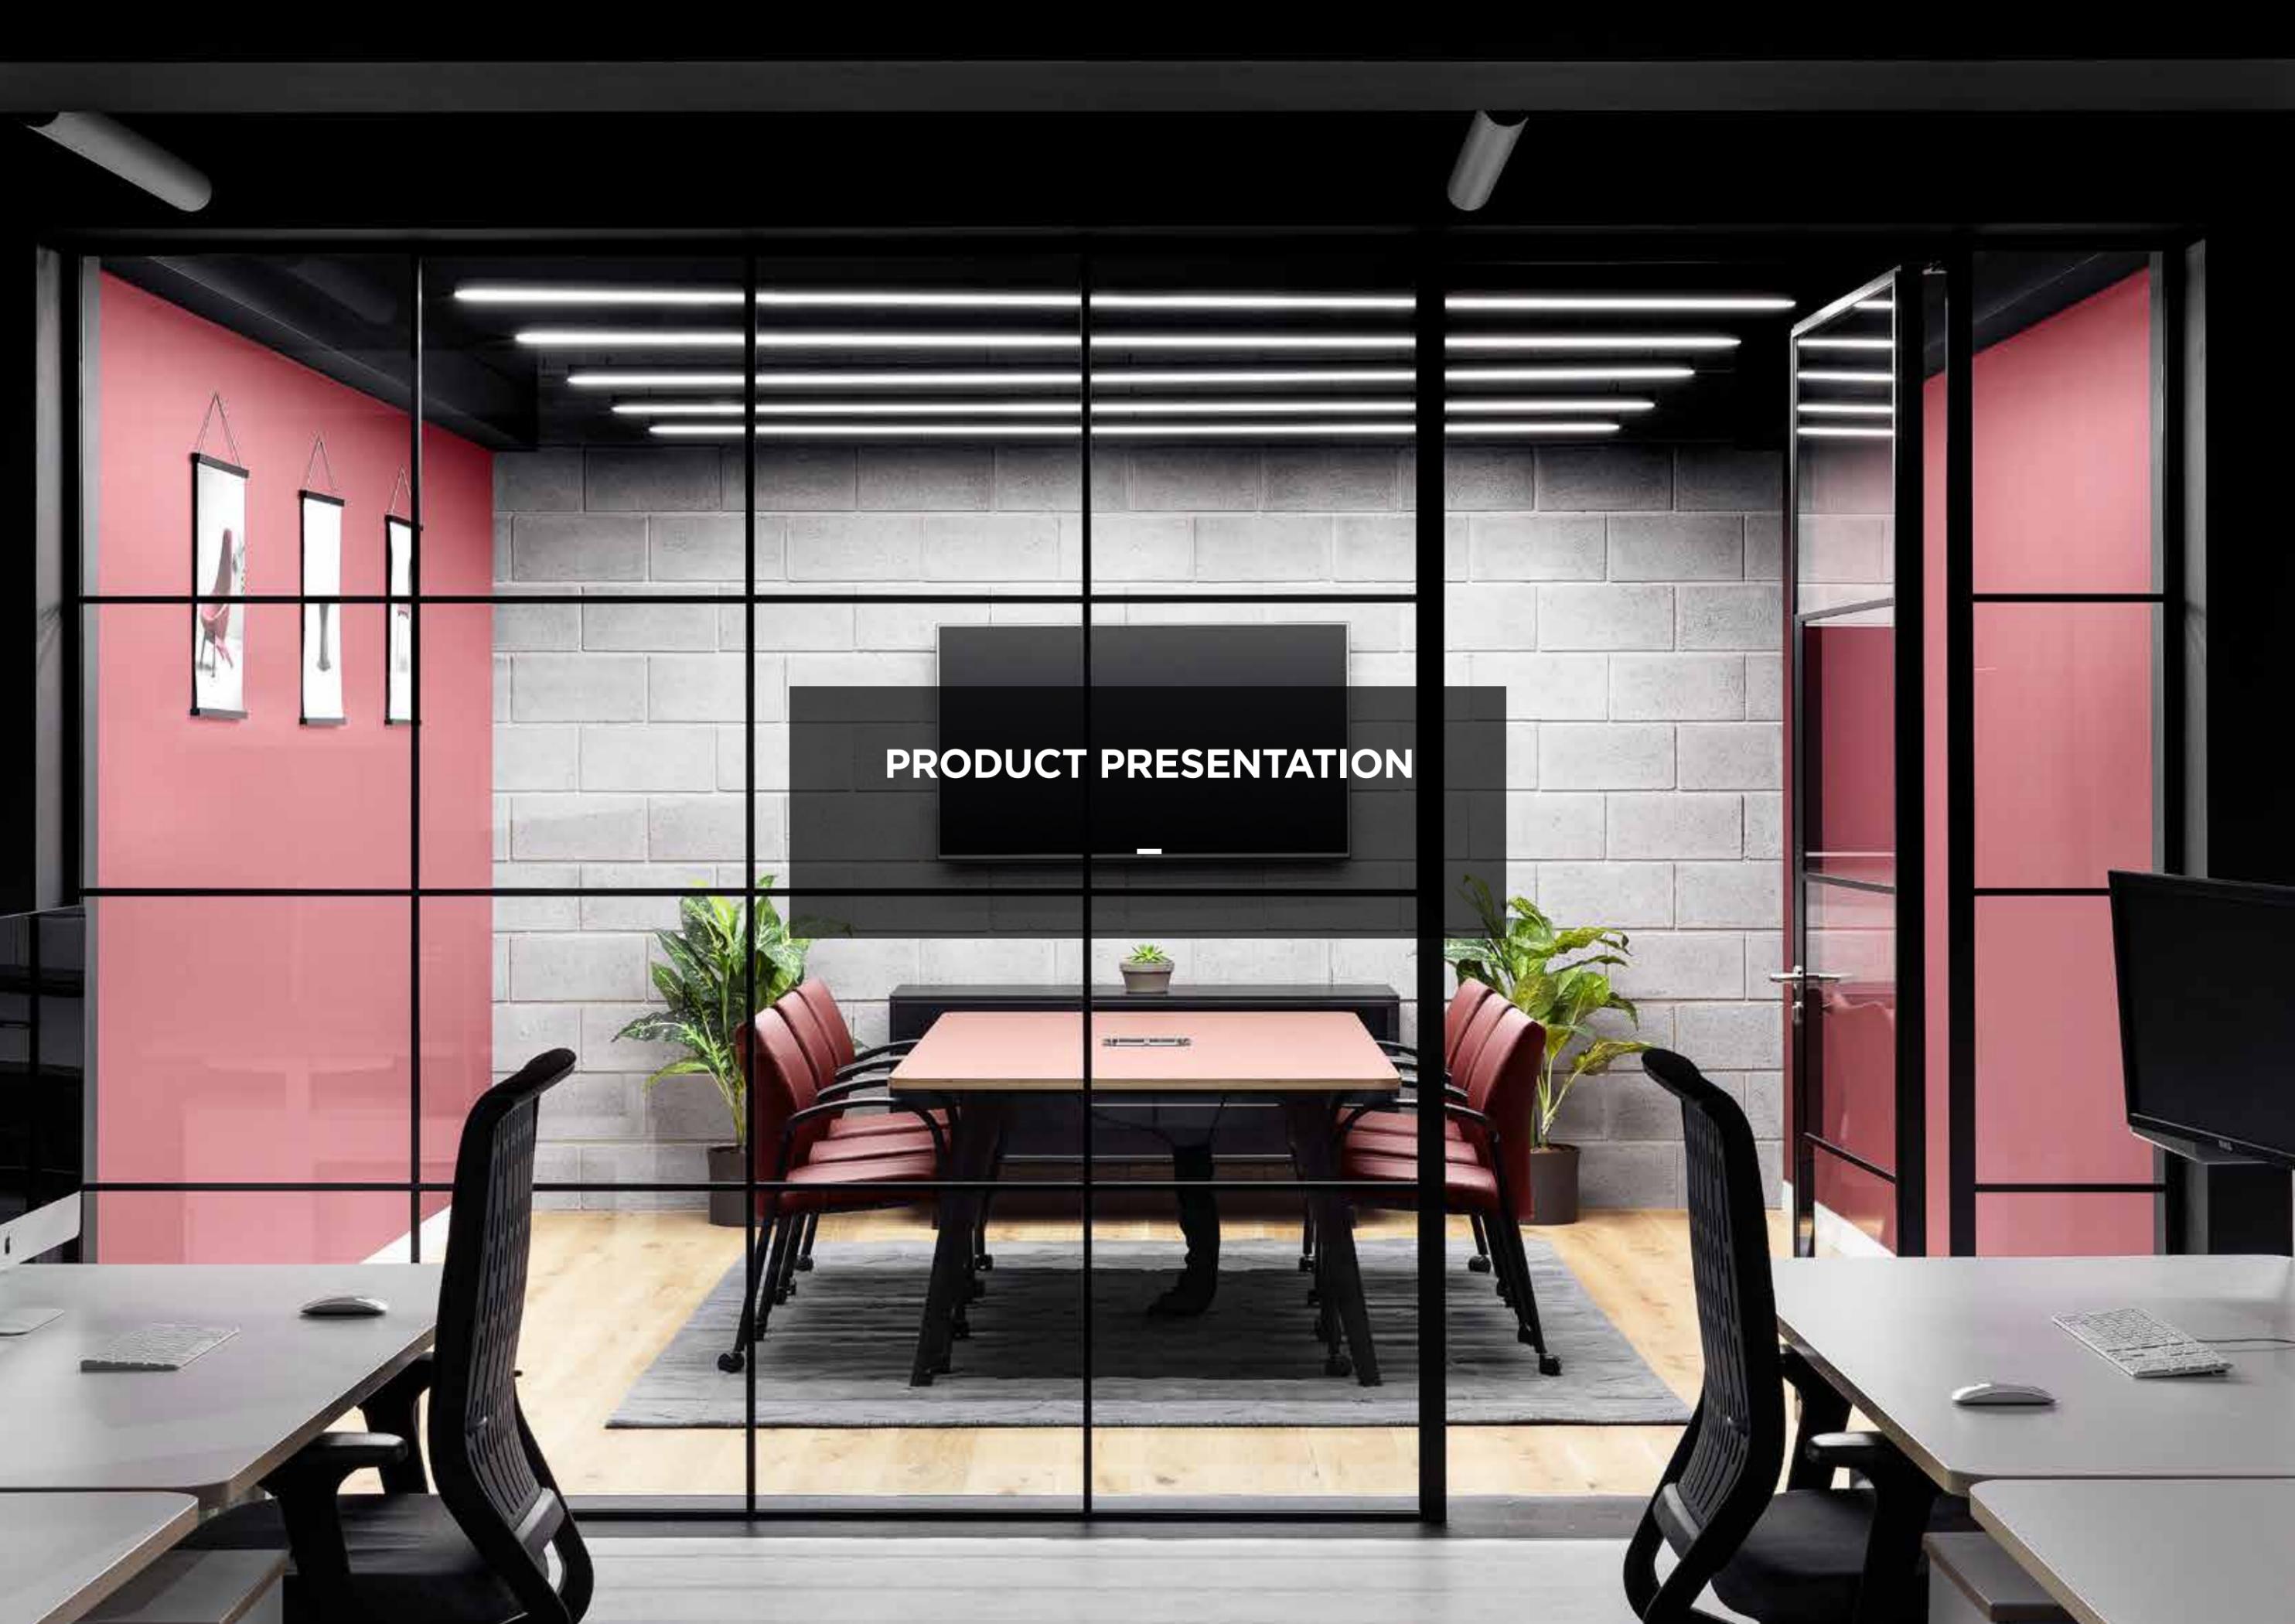

Choice and Consolidation

A single source solution for all requirements from the Senator Groups extensive portfolio and the facility to support any bought in third party products required.

Reducing Risk

The Senator Group represent a low risk choice

PRODUCT DESCRIPTION

- Freeway HA electric height adjustable workstation in MFC with powder coated metal frame.
- Cantilevered bench surface to allow for free movement of user without knee clashes - including anti-collision sensors.
- Back to back module as standard with single unit available. Protective edge banding.
- Allows for integration of workstation top power (SUNT-03), monitor arms and possible future integration of acoustic and privacy divider screens.
- Free movement of user without line clashes.
- Includes vertical cable management (vertical cable distribution shall allow for flexible, concealed and protect connection from floor box / grommet to horizontal cable management with segregated distribution).
- Includes horizontal cable management (1 x upper level cable tray & 1 x lower level cable tray).
- The top cable tray has an overall depth of 120mm from underside of workstation surface to base of tray, and a clear access from the side of the tray of 80mm. The lower cable tray has a dust cover and adequately sized apperture to accomodate cables / equipments as per project requirements. Cable basket underneath of each bench surface for horizontal cable management

FINISH

White / Standard Colour MFC / Powder Coated Frame in White, Anthracite, Black. No visible logo or branding tags, buttons, or plates to be used in products

PRODUCT DESCRIPTION

- Freeway HA electric height adjustable workstation in MFC with powder coated metal frame.
- Cantilevered bench surface to allow for free movement of user without knee clashes - including anti-collision sensors.
- Back to back module as standard with single unit available. Protective edge banding.
- Allows for integration of workstation top power (SUNT-03), monitor arms and possible future integration of acoustic and privacy divider screens.
- Free movement of user without line clashes.
- Includes vertical cable management (vertical cable distribution shall allow for flexible, concealed and protect connection from floor box / grommet to horizontal cable management with segregated distribution).
- Includes horizontal cable management (1 x upper level cable tray & 1 x lower level cable tray).
- The top cable tray has an overall depth of 120mm from underside of workstation surface to base of tray, and a clear access from the side of the tray of 80mm. The lower cable tray has a dust cover and adequately sized apperture to accomodate cables / equipments as per project requirements. Cable basket underneath of each bench surface for horizontal cable management

FINISH

White / Standard Colour MFC / Powder Coated Frame in White, Anthracite, Black. No visible logo or branding tags, buttons, or plates to be used in products
